

Lets build a world

Can you imagine a world
Where you can pause time
Time for the people you love
Time for change

Without action there is no change
Let's stand and march and shout
The future is in our hands
But time is running out

Let's Build a world we want to live in
Where we can walk amongst the trees with our friends and families
Let's fight for what is right and never give in
Woah Yeah
Let's build a world we want to live in

Can you imagine a place
Where every person's free
A home for everyone
And the air is clean

But without action there is no change
Let's stand and march and shout
The future is in our hands
But time is running out

Let's Build a world we want to live in
Where we can walk amongst the trees with our friends and families
Let's fight for what is right and never give in
Woah Yeah
Let's build a world we want to live in

Let's Build a world we want to live in
Where we can walk amongst the trees with our friends and families
Let's fight for what is right and never give in
Woah Yeah
Let's build a world we want to live in
Let's build a world we want to live in
